

Construction Update – Bollinger Canyon Road Phase 3

Saturday work is scheduled for April 19th along Bollinger Canyon Road from Alcosta Boulevard to Camino Ramon, involving preparation for the pavement overlay on Monday April 21st. Traffic signal work requiring a traffic signal shutdown for both the Market Place and Iron Horse Trail intersections of Bollinger Canyon Road is tentatively set for May 3rd. During the traffic signal shutdown period of approximately four hours, the affected intersections shall be treated as all-way stop intersections, and will be signed as such with temporary stop signs. The Alcosta/Bollinger intersection will remain operational at all times. All construction is scheduled to be substantially complete prior to May 24th in consideration of the Art and Wind Festival.

NOTICE OF CONSTRUCTION
BOLLINGER CANYON ROAD PHASE 3
ROADWAY IMPROVEMENTS
(ALCOSTA BOULEVARD TO WEST OF THE
IRON HORSE TRAIL SIGNAL)

**NOTICE IS HEREBY GIVEN BY THE CITY OF SAN RAMON THAT
CONSTRUCTION ON BOLLINGER CANYON ROAD
(ALCOSTA BOULEVARD TO WEST OF THE IRON HORSE TRAIL SIGNAL)
IS EXPECTED TO BEGIN ON MARCH 19, 2008.**

The Bollinger Canyon Road Phase 3 Roadway Improvement Project will begin on March 19th and continue until approximately May 31, 2008. Ultimate improvements from Alcosta Boulevard to the Market Place intersection consist of re-striping, median island width reduction and landscaping, and traffic signal modifications to accommodate an additional travel lane in each direction to create a total of four travel lanes eastbound and westbound. Interim improvements from the Market Place to west of the Iron Horse Trail include median island removal and replacement with temporary delineators, asphalt curb/dike, and re-striping to create an additional fourth travel lane for the westbound traffic, which will effectively create a total of four travel lanes in the westbound direction from Alcosta Boulevard to the freeway. Temporary delineators will remain in place until the final improvements to Bollinger Canyon Road from the Iron Horse Trail to I-680 are completed. Soon after this project is completed the DERWA (DSRSD – EBMUD Recycled Water Authority) recycled water pipeline and pump station project facilitated by the U.S. Army Corps of Engineers will begin construction on Bollinger Canyon Road from the Iron Horse Trail to approximately 650 feet east of Chanterella Drive.

Your patience during construction is appreciated. Visit the City website at www.ci.san-ramon.ca.us for project updates and future DERWA project updates.
